margathrane affair. The total sales of second amounted to long these 200,000 shares also as one low record of the total for the year, and not changes in prices were property and in surgeonists white the turnge and the serve quiet for long periods no of the erect spectation mate panel a lette legior than it clear control or than a segment of somewhat you from the stronger entertions despite the futbone partit for rione The market only reflected to day INCHES AND THE STATE OF THE PROPERTY AND THE PARTY AND THE part of professional operators when never contributed the oute tegres of title to the specialistes progress that has neen county forces the every the weather stude to the market ware the Brogetter Stationer resembles and profes out leaves and the setting in this posetor that hee heen ---epiperently formy figure sports the abouting contributed according the newsetteen of the evators for the first two months of the flarat The decrease in set revenues se habited in mich so to manifesty raise a paration concerning the ability of the comname to continue dividends on its preferred stort even at the reduced rate at which thege are now being paid. It should be lurene in mind however, that included in the statement referred to more certain exceptional charges for equipment and repairs that will not be repeated later: and the opinion is certainly altogether premature that the Southern Railway Commany cannot pay its present proferred

FITANCIAL AND COMMERCIAL.

cent, bonds, the gain here being caused undoubtedly by the publication this morning of the company's statement concerning the exact relations between it and the other empanies in the Interhorough Metropolitan evetem There were two particularly favorable developments to-day, one of these being the very decided improvement shown in the foreign financial markets, especially on the London Stock Exchange For several days past these markets have been heavy if not definitely weak, and selling of stocks here during the last fortnight for the account of London and the European Continent has been estimated as high as 100,000 shares. As far as could be learned this weakness has been due largely to fears concerning the outcome of the October 1 financial settlements, which, so is now disclosed, were unfounded. At any rate with the satisfactory conclusion of these settlementathe markets abroad have all displayed a much stronger undertone. The price of consols rose to-day nine-sixteenths of a

lividend through the year. On the other

hand strong at wha to-day were the In-

point, this constituting a very large rise. and the Paris and Berlin markets if not exactly buoyant were definitely strong. A feature of the advancing tendency in these markets was a rise in copper shares and in the price of copper metal. Again to-day a matter for encouragement locally was the fact that call money rates were relatively easy, although the indications were not over bright for a favorable bank statement to-morrow. The banks have lost in cash during the week, as is variously estimated, between \$3,500,000 and \$4,500,000. and this drain would on the face of things. if unaccompanied with a contraction of the bank loan account, make a large hole in the bank surplus reserve. It seems probable, however, judging from to-day's call money rates, which were at no time higher than 61/2 per cent., that the bank return will be of the kind known as "better than expected." Sterling exchange advanced to-day 30 points because, as was supposed, of remittances abroad made connection with the borrowing necessities

THE CURB MARKET.

Dealings in curb securities attracted very Dealings in curb securities attracted very little attention to-day. The market throughout the session was extremely dull, with very few noteworthy features. Some firmness was exhibited at the opening and in the first hour, Boston Consolidated advancing to 15½. After this prices as a rule went lower, but reacted agan in the final trading so that net changes in quotations either way were of small importance. The weakest feature of the market was Greene-Cananca, which touched 7½, a new low record level, and closed at a net decline of ½ point. Boston sold down to 14½, but recovered and closed at 15½. Nipissing was notably firm. Barnes-King was active at ½ to 1. Other fluctuations

81 88 137 60 THE BOSTON MARKET.

Boston, Oct. 4.—The market for copper lares opened steady and had a firm tone his morning, but became dull as the session rogressed and prices had a tendency to sell fractionally. There was no feature to be list, business being mostly in odd lots. Industrials were fairly active and steady ithout feature, while the rail issues were nill and neglected.

The Alabama Great Southern Railroad Company reports for August;

\$45,495

The warm good beving of freezonber at trace by premiurate commission houses the Northwest sent beving opters and dimespoils advices stated that the milk there had taken all of the floating supply of whest at Ranges tive cash wheat sold at an advance of 2 capis.

Some hought on the Modern Miller's weekly report, which apparently indicates that there is to be a considerable reduction in the next viotes wheat acrongs in some parts of the sometiment for the report exid.

The weather has delayed seeding of anterwings in France and thinhoma, and the acrospe will be reduced in the former State and probabily in Oklahoma. One correspondent estimates the reduction in the acrospe in lease at 30 per cent.

Vot at no time was the advance anything great it spote of the bullish character of the hulk of the news, and in the end in fact prices were lover for the day. Many were disposed to take profits. Not a few who are builtable on the ultimate course of prices are disposed to take profits also are foo, that the reports of big export sales are being exaggerated for the purpose of inducing the outside public to take hold with greater freedom.

But the market took the oferings very wall, the not decline being only 'c. The big export sales are being exaggerated for the purpose of inducing the outside public to take hold with greater freedom.

But the market took the oferings very wall, the not decline being only 'c. The big export sales are being exaggerated for the purpose of inducing the outside public to take hold with greater freedom.

But the market took the oferings very wall, the not decline being only 'c. The big export sold with traders. Many have looked after, the foreign buying as e.Angerated, but we see no good reason to doubt it. They have been acquiring our wheat in a way sing gesting a granity in the actuation at hore less spring.

The exports for the week, according to Provider's were 4.734,936 biss?, against 4.876,737 last week and 4.917,021 last year

The exports for the week, according to the exports, were 4.734,950 bush, against 4.754,737 last week and 4.977,021 last year, since July 1, es 4.05,233, against 44.785,043 in the same time last season. The Argentine weekly crop report was favorable. The shipments from that country for the week according to Broomhail, were 1,128,000 bush against 169,000 last week and 880,000 last year since January 1, 97,120,000, against 82,002,000 in the same time last year.

Minneapolis—I don't think the large shorts in this market have covered yet. They seem to figure that this market will be weaker compared with Chicago. Don't think it will. This of the country buying and speculators selling futures. One elevator was bid highest price on crop yesterday for his entire stock of wheat in store. Indications are for very heavy world's shipments of wheat for this week. This may dampen the bullish feeling in both Liverpool and the Continent. THE CORN SITUATION

Some early reaction was succeeded by another upward turn. Yet the weather was favorable, being fair and cooler. Snow estimates the crop at 2,500,000,000 to 2,800,000,000 bushels, and the crop reports of late of the downel of Commerce and the Price Current have been cheerful. As to the size of the crop, especially the size of the contract supply very much depends upon whether the weather during the next four weeks is reasonably favorable generally fair and cool. Reports of rain yesterday caused buying. It is said that 600,000 bushels of cush corn were sold at Chicago on Thursday. Liverpool declined ',d, on cash and \(\frac{1}{2}\)d, on futures.

There is said to be much soft corn in loward owing to the frost last month. Frost was reported yesterday, moreover, in the eastern portion of that State. Chicago received 429 cars, of which 146 graded contract. The total interior receipts were 827,000 bushels. Changes. inc. \$55,975 inc. 71,632 \$19.057

cars, of which 146 graded contract. The total interior receipts were \$27,000 bushels, against 358,000 last year.

The exports for the week were 498,374 bushels, against 16,120 last week and \$16,000 last year; since July 1, 15,028,220, against 9,300,361 in the same time last season. The Argentine shipments were 2,375,000 bushels, against 1,471,000 last week and 1,982,000 last year; since May 1, 31,432,000, against 61,539,000 in the same time last season.

"Corn was hurt in lowa by the frost of last week, and there are predictions of considerable soft corn in the 2,500,000,000 bush, crop now expected."—Bradstreets. Changes. Inc. \$66,775 Inc. 75.009 THE OATS PEATURES.

THE OARS FEATURES.

(rop reports were bullish and an early recession soon gave place to a rally.

Some shorts covered and there was more or less new buying, though the trading was far from active. Snow says that oats are so light that by weight the crop is less than 600,300,000 bush. Chicago got only 10 cars of contract grade out of total arrivles of 208. THE SPOT MARKETS.

THE SPOT MARKETS.

NAVAL Stones - Spirits of furpentine A.,
Common to good strained rosin, \$1 The copper metal market was in harget

esterday and there were reported small transactions at the prevailing rate is cents for electrolytic. A prediction the present scale of prices would be for to be the bottom of the market is made Walker's copper letter to the Beston mercial, which will say to-day: "The copper market is improving slight

Prices are being maintained at 15', cents pe bound for lake and 15 cents for electroly Although practically all of the recent burn has been for immediate delivery, consumthinking it better to pursue the band to me policy for the present, the mining companie have actually sold more copper during the last three weeks than they have produced One of the largest producing interests as that his companies will clean up every por of their surplus accumulation in sixt provided the market continues as good as as been for a few weeks past. there is likely to be still further improveme

One of the largest consumers in the trad save he is satisfied that the price of copper on the bottom. He is impressed by the ver-large curtailment of production and ten-sure that this cannot fail to sustain the market Sentiment in the trade is very much improved He thinks consumers are quite well satisfie that the present price will be maintained While business has not increased material as yet, he thinks an easier money market a

The production of the Butte distrionly slightly exceeded 11,000,000 pounds September. The output of the Bisbee dis-trict has been reduced considerably alreads and this month will be only about one-half what it was in June and July. Several for 1,000 men laid off by the Greene company at Cananea. The custom smelters everywhere are reducing their treatment of copper cres. The Osceola and other Bigelow mines at Lake Superior are curtailing their output Two or three mines are closed down in I tal The voluntary reduction, together will that forced by fuel shortage and labor troubles, is believed to aggregate fully per cent, of the world'a normal production
